

MEXICAN IS KILLED IN CARTHAGE MINE

Fell Down Shaft Dying Instantly—Country Roads To Be Repaired.

San Antonio, N. M., July 19.—Ramon Carrozo, a Mexican miner, was instantly killed in the Carthage mine by falling down the shaft. A brother, who was working within 40 feet of him ran to him as he fell, but the man died before he could reach him. At a coroner's inquest held here today it was determined that death had been accidental. The deceased and his brother came here a few months ago from Mexico, since which time both had been employed at the Carthage mine.

The board of county commissioners will take some steps at the next meeting to arrange for making a good road between San Antonio and Socorro. There is considerable travel over this stretch of roadway and at three or four points it is hazardous.

Miss Felice Hilton, of San Antonio, has been on a camping trip at Rosedale for several days, accompanied by Miss Boyer, of San Antonio; Miss Smith, of Socorro, and Miss S. Scott, of Magdalena.

George H. Justice, formerly agent of the Santa Fe at this point, has been transferred to Ploer, N. M. He is succeeded here by P. H. Lacy.

Col. A. H. Hilton, who has returned from a tour of different states, will commence work on a new hotel, bank and store here. The bank will have many local men among the stockholders.

The Newland railway, of which Fred Loucks is superintendent, has had many new improvements made lately, and the road is now in fine shape. David Baer, president of the local school board, states that last year's work was the best in the educational history of San Antonio.

SANTA FE MEXICANS ARE HELD ON ROBBERY CHARGE.

Santa Fe, N. M., July 19.—Florence Apodaca, Ben Tucker, Ezequiel Cortez and Adolfo Quintana were held for grand jury on the charge of highway robbery and assault with a deadly weapon, being charged with having held up Sabino Salas at the point of a gun within the city limits.

ACCUSERS ARRESTED IN RAID AT VAUGHAN.

Santa Fe, N. M., July 19.—Twenty-five persons were arrested at Vaughan, Guadalupe county, charged with violating the Sunday closing law, and other saloon restriction laws. One of the persons arrested were among those who had complained of conditions and were therefore responsible for the raid.

HITCHCOCK GOES TO EUROPE ON VACATION

Frank H. Hitchcock, postmaster general, who recently sailed for Europe on a brief vacation. Mr. Hitchcock said that the department had saved \$10,000.

000 since the first of the year and that this sum would probably be doubled by the end of the year. Mr. Hitchcock said that the receipts of his department had been increased 10 per cent and expenses increased only 4 per cent.

BOLETO TEST CASE WILL BE HEARD IN TOMBSTONE

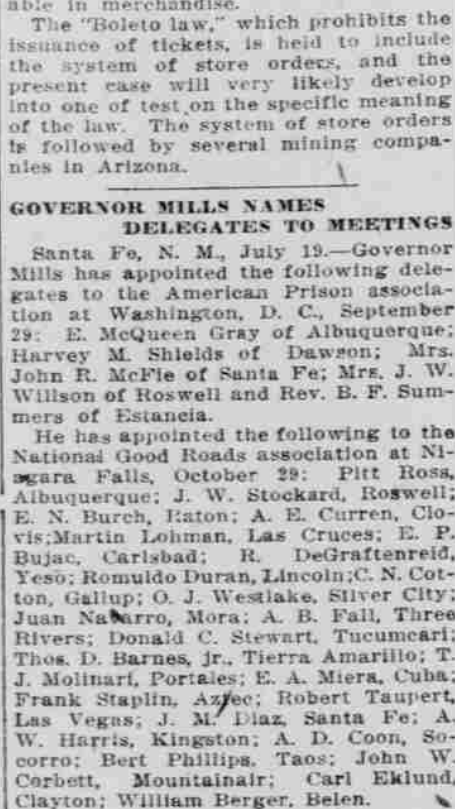

Indictment Charges Mining Company Employees and Merchant With Violating Territorial Law.

Tombstone, Ariz., July 19.—The first case of its kind to be tried in the territory of Arizona as the outcome of the indictments returned by the last grand jury of this county against H. H. Dyer, superintendent and F. M. McDonald, bookkeeper of the Shannon Copper company's interests at Gleason, and B. A. Taylor, a merchant of that camp, for alleged violation of the "Boleto law," will be heard for trial here.

The indictments allege the issuing of store orders unredeemable at face value

ENGINEER'S DEATH STILL A MYSTERY.

Colonel Silas G. Comfort, whose body was recently discovered in Crum creek, two miles from Chester, Pa. The discovery

GOVERNOR MILLS NAMES DELEGATES TO MEETINGS

Santa Fe, N. M., July 19.—Governor Mills has appointed the following delegates to the American Prison association at Washington, D. C., September 29: E. McQueen Gray of Albuquerque; Harvey M. Shields of Dawson; John R. McNeil of Santa Fe; Mrs. J. W. Wilson of Roswell and Rev. B. F. Summers of Estancia.

He has appointed the following to the National Good Roads association at Santa Fe, October 29: Pitt Rosa, Albuquerque; J. W. Stockard, Roswell; E. N. Burch, Hinton; A. E. Curren, Clovis; Martin Lohman, Las Cruces; E. P. Bujas, Carlsbad; J. DeGraffenried, Yuma; Romulo Duran, Lincoln; C. N. Cotton, Gallup; O. J. Westlake, Silver City; Juan Navarro, Mora; A. B. Fall, Three Rivers; Donald C. Stewart, Tucuman; Thos. J. Barnes, Jr., Tiersman; Amario, T. J. Molinari, Portales; E. A. Miera, Cuba; Frank Staplin, Aztec; Robert Taupert, Las Vegas; J. M. Diaz, Santa Fe; A. W. Harris, Kingston; A. D. Coon, Socorro; Bert Phillips, Tano; John W. Corbett, Mountainair; Carl Eklund, Clayton; William Berger, Belen.

AMUSEMENTS.

AT THE AIRDOME.

Another large and appreciative audience witnessed the second performance of "A Fictitious Nobleman" at the Airdome last night. The vaudeville offering of songs and "Just for a Girl" received numerous recalls. The bill is well-cast and the electric vaudeville master J. J. Harrison, Jr. and his company, which is by far the best novelty yet offered, makes an evening's entertainment well worth a while.

NOTED LECTURERS FOR SANTA FE SCHOOL NEAR SANTA FE

Santa Fe, N. M., July 19.—The annual summer school of the School of American Archaeology of this city opened in the Rito de los Trifolios canyon, 20 miles west of here. Dr. Edgar L. Hewett is in charge and among the lecturers will be Charles F. Lummis, John P. Harrington, P. W. Hodge and other noted ethnologists and archaeologists.

CONTRACT LET FOR DEEP WELL AT SHAMROCK

Prospectors Secure Nearby Land From Sacramento Association.

J. M. Duke and J. A. Brent, capitalists and oil men of San Francisco, Cal., have let a contract to Capt. J. L. Mayo and Earl A. Mayo of Alamogordo, to drill a well for oil at Shamrock, New Mexico, formerly known as Camp City. The well is to be put down 1500 feet and the contract price for the work is \$2500. It is stipulated that if oil is developed in commercial quantities, Capt. Mayo is to receive a bonus of \$1000.

The new well will be drilled about 20 feet from the original drill hole where oil was reported to have been struck, which is within 200 yards of the track of the El Paso & Southwestern railway. The drill was stuck in the old hole and the operators were unable to extricate it. This was on a 40-acre tract owned by the Sacramento Deep Well association.

Relinquishments have been made by owners of oil placer claims adjacent to the well, and Brent & Duke have relocated them. One of these relinquishments was made by the Sacramento Deep Well association.

Frank M. Leeland, of Phoenix, Ariz., has gone to Shamrock, where he is interested in development work.

ANOTHER BIG STRIKE AT COURTLAND CAMP

Cummings & Wolcott Property Has Value—Copper Queen May Buy.

Courtland, Ariz., July 19.—The excitement continues in Courtland over the reported discovery of gold ore in a large tract of land owned by Cummings & Wolcott, of Tombstone. The Copper Queen company has sampled the vein, taking 35 sacks of ore for a mill run at Douglas, to determine whether to purchase the mine.

The hanging wall is porphyry, while the supposed foot wall is lime stone. But lime stone is suspected of being in the interior and not the true wall, for it is said to carry much quartz which has gold values.

The 12 feet of ore between these walls is all of one kind, except some by strings, a sample of which is claimed assayed \$12,000 per ton. This came from the depth of 100 feet, from a streak carrying gold, silver and lead.

BIG DIVIDENDS FOR PHELPS, DODGE & CO.

In the securities holding class, Phelps, Dodge & Co. lead for the present year with a total of \$1,435,750 in dividends, its nearest competitor in this class for the year is the Amalgamated.

THE MANGUS COMPANY STRIKES RICH VEIN

Silver City, N. M., July 19.—The Mangus Development company has made a good ore strike in the Star drill hole in Emerald gulch in the Hurro mountains. The strike was made at a depth of 700 feet. The drill has been in ore from a depth of 350 feet, but at 700 feet the ore increased greatly in quantity and in its values in copper.

The drill is now down 740 feet, which is probably the depth of the working in the Hurro mountain district.

Superintendent H. A. Lake has returned from an inspection of the Superior and Boston and Miami mines, near Globe, Ariz.

LIVE OAK INDICATIONS CONSIDERED FLATTERING

Prospecting in the Live Oak mine reveals constantly increasing ore bodies all of commercial value. Every drill hole confirms the belief in its extensive ore area. The result of the drilling operations at this mine has proved an area 1600 feet from east to west and 500 feet wide from north to south, and from 100 to over in depth. The thickness of commercial ore. A safe estimate from the results of the drillings accomplished is that about 10,000,000 tons of ore are developed.

BURRO MOUNTAIN MINES RESUME ACTIVE OPERATIONS

Kelly, N. M., July 19.—The new Graphic mill has been completed and is in full operation, turning out a large amount of concentrates in sulphides. It is said that the capacity of the mill will soon be increased.

The Mistake Mining company which has a large group of claims with a fine showing, is replacing its mill and will begin mining.

Mob-Coddling by Congressmen

A measure to protect the people who butchered by cowardly Congressmen and saved by a brave President to whom honor is due for his protection.

\$200,000.00 was to be appropriated for use by the Dept. of Justice in prosecuting offenders against the Sherman Anti-Trust law, which is intended to protect men at work, whether they be working with hands, heads, or both.

Protect them from "combinations and conspiracies in restraint of trade." That means combinations of men who conspire to prevent other men from earning a living.

Two or three large oil companies might "combine and conspire" to freeze out a small dealer.

He has a right to conduct a business and earn a living for his family and should have protection from "combinations" which "conspire" to ruin him.

It also applies to "combinations" of workmen who "conspire" to drive other workmen from work.

The great Labor Trust has been seized by certain men who now have control.

They force every member to pay fees, which aggregate several hundred thousand dollars a year.

They intend that no men who refuse to pay fees to them shall work.

Whenever independent men or those who form their own union seek to work, the big trust orders strikes on the jobs, to force the independent men or independent union men out of work until they join the big trust and pay fees to the leaders.

One illustration will suffice: On June 12nd, 1910, the N. Y. Building Trades Council (part of the Labor Trust) declared a strike of all trades on a 12-story building at 35th and 6th Ave., because of the employment of members of the trust. Work on the entire building was stopped.

The Sec'y of the "trust" said that general strikes would be ordered on every building where the "obnoxious electricians" are employed.

These electricians belong to a union formed under the arbitration plan some time ago and kept their jobs. The employers afterward contracted, under pressure, with the big trust and were told to and did order the independent union to join the Labor Trust. The men refused because they did not like the trust methods of coercion, bullying, slugging and general violence.

This is only one illustration of hundreds of cases where the trust "conspires in restraint of trade."

That is, by combination they conspire to and do stop work, interfere with industry, and prevent men from earning a living unless they pay fees to the trust leaders.

There is perhaps never one single day in a year but what the Labor Trust is engaged somewhere in America, in "restraining trade," preventing men from working and stopping the work of industry to warn the law and submit to the damage, losses, insolence and ill-will put upon them by the comparatively small band of trust members.

people against the biggest and most harmful trust we have.

The authorities forget there are about thirty million workers in this country and only about 1,700,000 members of the Labor Trust and that most of them are coerced into membership.

How can the authorities answer to the vast army of 28 million free workers—farmers and householders whose affairs are from time to time interfered with and who have to bear the loss of wages and the general heavy loss of stopped industries brought about by the leaders of the Labor Trust in their manipulation of men seeking to drive them into fee-paying slavery?

The 28,000,000 workers, not members of the trust, object to being driven from work or having R. R. trains stopped with all the far-reaching losses, or the street cars stopped and men and women prevented from getting to and from work, or factories struck and perhaps destroyed, the weekly pay roll stopped and the sustenance of at least part and perhaps all of a community withdrawn.

The great Philadelphia street car strike was forced by the big Labor Trust, not on account of wages and hours, but to throw out about 4000 men who had their own union, a peaceable one.

These men did not want to pay fees to the trust leaders and be subject to their whims so they formed their own union for self protection. Thereupon the big trust called a strike, blew up and burned cars, attacked and slaughtered men, kept people from getting to and from work, forced their other slaves to quit work and cost the people of Phil. several million dollars and solely for the purpose of "showing" them the power of the Labor Trust to "force" people to "join" and force these independent men to join the trust, "obey" and pay fees to the leaders.

That is a serious state of affairs in the free country and is enough to awaken every American to the necessity of curbing such men in their insane race for notoriety, power and fee-gathering.

Citizens want industry, commerce and wages to continue without interference from any set of men either employers or employees who seek selfish gain to themselves alone, without regard to how much all the people outside the trust may be inconvenienced and damaged.

The trust leaders, to make stronger their control of men, are "vigilant" to be able to boycott and conspire to ruin all free citizens either employers or workmen who do not pay fees to the trust leaders.

When this \$200,000.00 appropriation bill came up they delayed Congress with demands to exempt combinations of labor from prosecution if they broke the law and, starting as it may seem, over a hundred Congressmen voted to exempt them. In other words voted to permit one set of men to break the law and dominate the great majority of citizens, while the majority must keep the law and submit to the damage, losses, insolence and ill-will put upon them by the comparatively small band of trust members.

Why were these Congressmen cowardly? you ask. Because the trust managers sent word to their local managers in all parts of the country instructing them to fire in letters and telegrams to Congressmen whenever a bill to give the trust more power is introduced.

The great mass of citizens who are to be tyrannized over have no organization to warn them to notify Congressmen of their wishes and so the heavy fire comes from but one side.

(the Labor Trust side) and thus impresses the members of Congress with the belief that the whole mass of laboring men are crying for exemption from punishment for law-breaking.

In this particular case the President induced Congress to reconsider the vote and protect the masses from the proposed tyranny.

Don't forget the issue. The Labor Trust leaders called for exemption from prosecution when they break the law of conspiracy and they thus sought to be free to drive millions of free workmen into idleness.

These freemen will not soon forget the effort of their representatives in Congress to force them into the horrible slavery of the big Labor Trust which seeks to dictate first, monthly fees, then when and where they can work, whom, or what wages and how long.

That kind of "hand tying" is not relished by the millions of free men or by thousands of "red neck" men now forced into membership in order to get jobs and not be slugged, yet they are ordered on strike from time to time and made to boycott, picket and act as law-breakers, the best of the "red neck" fighting to hold power over them.

"How can the citizen and free man protect himself?" Write to your Congressman and Senator. Address them at home or in Congress. Tell them of the Labor Trust and intended to give them more power over us, and restrict our liberties; please protect us by voting it down; analyze each measure carefully and vote only for laws intended to protect the great majority of your constituents in their freedom, uncontrolled by any set of men either of capital or labor. It is dangerous to give any combination privilege or power to dictate to other citizens. We will support you if you protect us, but we must put in a representative who will defend the majority of the people if you refuse. Write him and write him now. Don't sit in silence and permit your liberties to be taken from you because the big Labor Trust, supported by fees, stirs its local managers to continued activity, while the plain every day citizen says nothing, having no organization.

Experience in the past has shown that the great big factor known as the "common man" may not be so quick as local Labor Trust leaders to write his Congressman for protection, yet he reads and votes; that is why many a candidate who thought he could help push through trust laws of either Capital or Labor, seeking gain or control of the average citizen has met defeat when he comes to the election.

No one leads the common people but they are neither fools nor children and they are at least 90 percent in the majority. Many new and peaceful organizations of labor are being established free from the fee hunting tyranny of the big Labor Trust.

One of these, The Nat'l Trades and Workers Ass'n, with headquarters at Battle Creek, Mich., recently offered Ex-Press President Roosevelt to give a \$100,000 a year if he would accept.

I became so strongly impressed with the honesty of purpose and progressive principles of this labor organization that I considered it worth while offering him \$100,000 a year if he would accept.

This organization takes in many of the best skilled workers in various crafts. They are pledged to no strikes, no boycott, picketing, coercion or violence of any kind. They present their cause peacefully and with dignity.

If settlement cannot be made, the

case goes to a carefully selected board of mediation. When the facts are brought out in friendly conference a settlement is reached in a great majority of cases. If not, the facts on both sides are given the local press and thus the citizens of the community become entirely conversant with the matter and public opinion steps in.

It's hard for either side to stand for a wrong, with the great weight of public opinion opposed.

Up to the time of the mediation proceeding the men keep at work and the flow of money through the community is continued. If, thereafter, they feel they can do better elsewhere, they have a right to withdraw 5 percent of the men each day and go to a better place if they make no objection to the employer putting new men in the places they leave. It seldom comes to that.

The practical working of the plan shows the industries go on and the employer holds his time-tried men to him on any reasonable terms and they and he are friends working together.

Whereas if they settled by the club and force, hate would invariably follow, greatly to the detriment of the industry and the men personally.

The Trades and Workers Ass'n is growing rapidly among some of the best workmen in America and will write the Trades and Workers Ass'n, of Battle Creek, Mich., for a constitution and bylaws and study the new peace movement.

Practically all real workers dislike to have their negotiations conducted by strikes, violence, hate and general disturbance, but the noisy ones have gained control of the big Labor Trust and they force the peaceful ones, and by such methods have brought much odium on the name of Labor.

A better day is coming. A day of peace and steady prosperity for the workers, but it will be delayed by cowardly Congressmen who are mistakenly vote to put more power in the hands of the trust leaders and make them immune from prosecution when they boycott, slug, burn and dynamite, using such means to hold workmen in their power by extracting monthly fees from them and to force the rest of humanity to "obey" them or take the consequences. It is high time the people were protected by the strong arm of the law.

Header if you want to retain your freedom talk plainly to your Congressman and Legislators. Remember the high priests of the Labor Trust are always busy hounding Congressmen to pass new laws to protect them in their attacks on workmen and citizens.

Do your duty and compel your representatives to protect you. If they don't respond, see you are at the polls and cast a vote for the man who has first agreed to stand by the majority and give "exemption" and special privilege to no tight and snug combination of either Labor or Capital.

Guard your sacred personal liberty actively and at all times, for the interests which would like to harness you are busy day in and day out.

Peril! no set of men to gain power to force you to buy only what they order, hire only those men they name, also to order when you can work, where, for whom, at what wages and how long.

Fall in withfulness and you will drift into humiliating servility from which it will be difficult to free yourself.

This is a time when individual liberty is being attacked.

Guard yours as you would your soul. There's a Reason.

C. W. POST.
